Overview

Do you find yourself mindlessly scrolling through your phone? Or have children who spend hours watching content with little benefit? Do you wish you could spend your time more effectively while still enjoying yourself? We feel the same way.

Peace and hello,

My name is Isa, the leading member of SolKahf Interactive (SKI). I hold a doctorate in using games for education and effective communication and frequently find myself answering "yes" to those questions. At SolKahf Interactive, we aim to enrich the way you experience life through games, with a mindful and soulful approach. Our mission is to create engaging, culturally rich, and morally driven games that resonate with players from all walks of life.

This document will give you a general rundown of what we are, what we want to do and how we plan on doing it. It also lets you know how you can get involved.

ABOUT US

Chapter 1

01

About Us

What is SolKahf Interactive?

SolKahf Interactive is a meaningful interactive indie company, in other words, we make inspiring games. It intends to enrich the way you experience life through games, with a mindful and soulful approach.

Our Story?

A group of diverse young friends came together and connected upon a soulful meaning of the journeys in life we all take. All love the impact of a good story and what brings us together, yet still admire our differences. In attempts to stamp a mark and show our colours, we present SolKahf. So(u)l-Kahf, a play on words. So(u)l, meaning the importance and depth of each individual, Kahf: The Arabic word for cave, coming from a story of two young boys that protected their integrity and soul by temporarily staying in a cave, and upon returning, they find that everybody else aged 100 years while they maintained young and upright. Therefore, SolKahf; is a soulful recluse for each individual to interact in a meaningful way with games.

Type of Games we make?

At SolKahf Interactive, we craft games that inspire players morally and spiritually. We believe that every game should leave you with something valuable—whether it's a moral lesson, a spiritual insight, a thought-provoking idea, an educational nugget, a healing experience, or simply a dose of fun. Our goal is to create games that resonate deeply with a diverse audience, celebrating and representing cultures often underrepresented. Through our games, we aim to tell their stories and showcase their unique ways of life. Join us on this journey of discovery and enrichment, and let our games bring a little extra goodness into your world.

We have officially released one mobile game, 'Hidden Reminders'. It is a word puzzle game. Everything starts with its first, you will be able to see us blooming more are time comes, showing you more of our intention and what we like to make.,

OUR MISSION

Chapter 2

02

Our Mission

The Vision

Games that Celebrate Cultural diversity and morals

At SolKahf Interactive, we're a relatively new team, but we're exceptionally hardworking, ambitious, and faithful. We're driven by the belief that games can be both entertaining and meaningful. Many popular games draw on specific philosophical or cultural foundations—'God of War' with its Greek mythology, 'Ghost of Tsushima' with its Buddhist and Taoist themes, and 'Call of Duty' reflecting American military culture.

Our aspiration is to make Islamic philosophy and cultural themes the fundamental backbone of our organization. We recognize that Arabs, Asians, Africans, and other cultures are often underrepresented or misrepresented in the gaming world, despite their rich cultural heritage, architecture, and philosophies. At SolKahf Interactive, we aim to change that. Our goal is to portray these cultures in a better light, creating games that not only entertain but also educate and inspire, celebrating the diverse beauty of our world.

The General Problem

Inspiring values and redefining Gaming

Video games now lead the entertainment market, generating higher revenue than movies, music, and other forms of entertainment. Unfortunately, these platforms often promote violence, indecent behaviour, and poor morals, overshadowing the positive potential of gaming. A significant portion of gamers are Muslims, who frequently encounter negative stereotypes and misrepresentations in popular games.

Considering that many games promoting harmful behaviours thrive due to strong funding and investor support, it's time we take control of our narrative. At SolKahf Interactive, we are dedicated to creating games that encourage positive behaviour, learning, and cultural representation, ensuring we don't compromise our values. By focusing on enriching themes and respectful portrayals, we aim to bring forth games that celebrate diverse cultures and inspire players to bring something beneficial with them long after they've put down the controller.

For Whom?

A quote goes here introducing this chapter point

Our games are for everyone! At SolKahf Interactive, we design games that transcend age and gender, welcoming adults, teens, and children alike. While our games are imbued with Islamic orientation, their themes and lessons are universal, offering something valuable for everyone. We strive to create inclusive experiences where players from all backgrounds can interact, learn, and grow together. Join us in exploring worlds that celebrate diversity, inspire positive values, and provide fun for all.

Why It Matters?

A quote goes here introducing this chapter point

Unlike many modern games that focus solely on entertainment, SolKahf Interactive believes games should serve a higher purpose. Life is much more than “fun and play.”

We see games as a powerful medium to help players learn, grow, and uphold their morals while connecting with kindness, contentment, and vigilance. In an era where self-help books dominate the best-seller lists, it's clear there's a deep need for internal peace and comfort.

We believe that, when done well, games can enrich the soul, heart, and mind. At SolKahf Interactive, we're committed to this vision. Our games are designed to inspire, educate, and uplift, offering a meaningful alternative to the typical gaming experience. Step by step, we're dedicated to creating experiences that support personal growth and positive values, proving that games can be both fun and profoundly impactful.

OUR GAMES

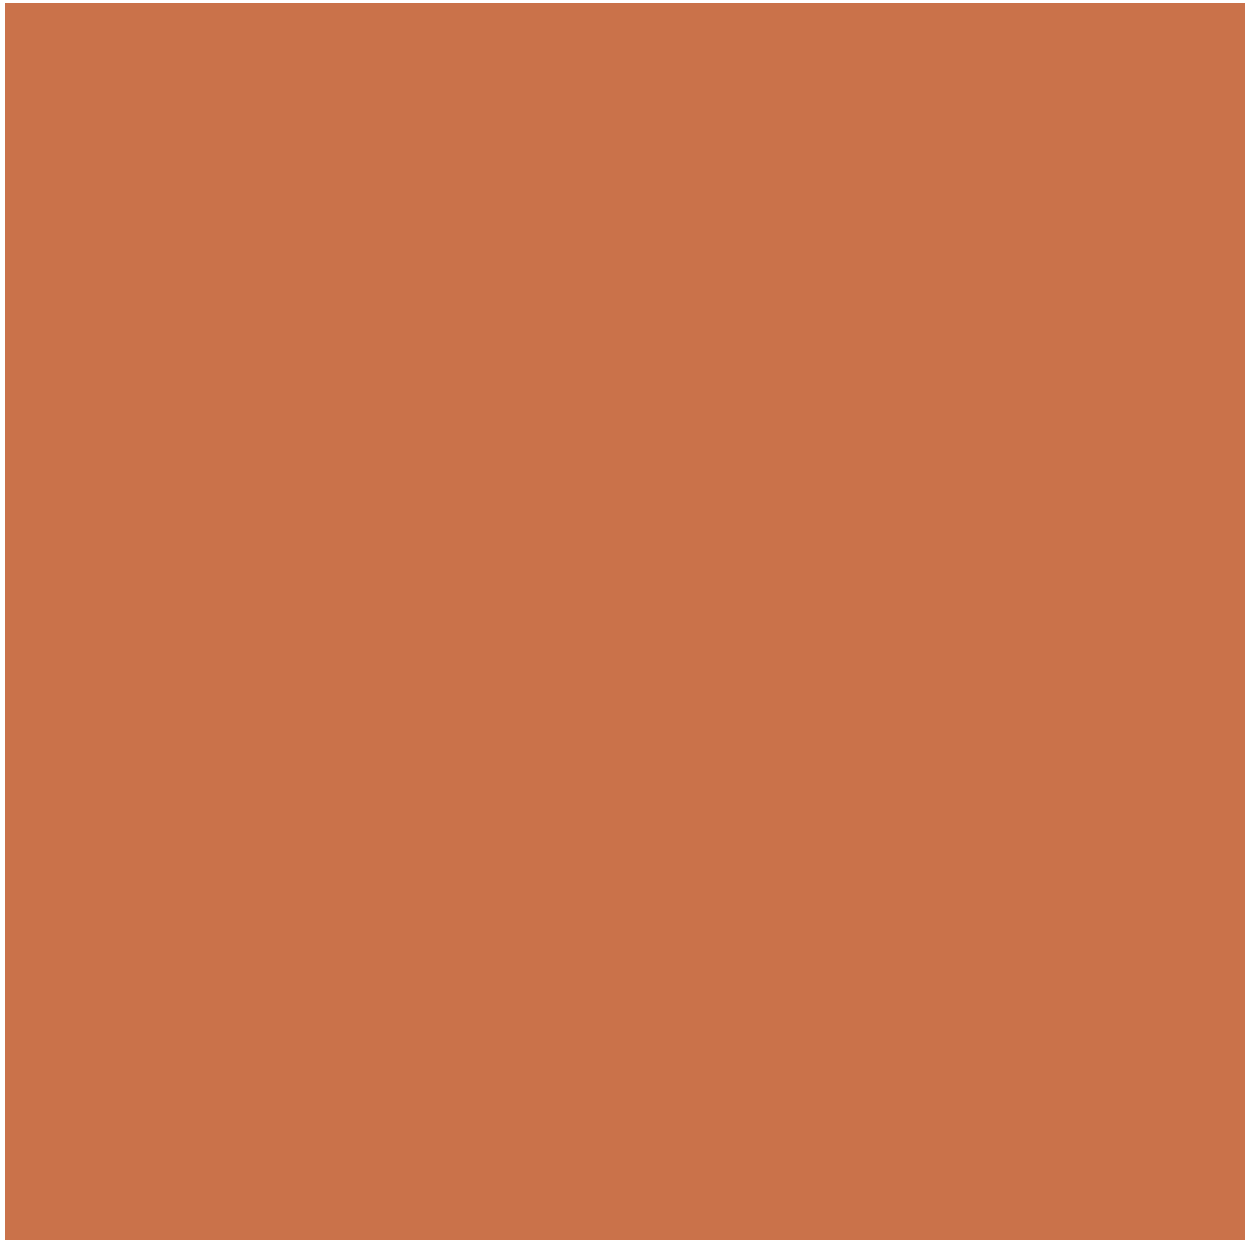

Chapter 3

03

Our Games

We've already released one official game and are excited to be on the verge of releasing our second. Our journey is just beginning, and we aim to undertake bigger projects that highlight the need for more morally driven games. Currently, we're focusing on phone games, but our ambition is to expand to larger platforms and create even more immersive experiences. At SolKahf Interactive, we're committed to showing that games can be both entertaining and enriching, paving the way for a new era of mindful gaming.

Hidden Reminders

Release Date: Sept 2022

Genre: Word Puzzle

Platform: Mobile (iOS and Android)

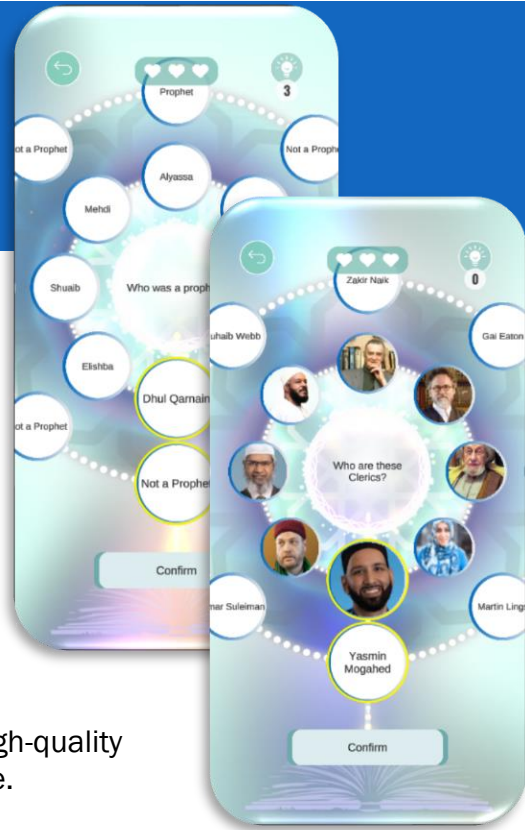

Downloads: 100+

Our first game, “Hidden Reminders,” is a puzzle game where players unravel wise quotes from Islamic and Eastern teachers, inspiring and teaching people from all walks of life. You can download it on your phone and try it out!

Unravel the wisdom of the believers, ponderers and the sacred carrying and understanding of life in line with Islamic values. Inspire yourself with brilliant quotes of believers and inspiring people collected for this game and unravel the hidden reminders to support you as you travel this journey called life! A very entertaining word puzzle game. Complete the quote by filling in the missing texts. Different categories have different quote types, and if it gets too hard, there are hints to help! Faith, hope, growth, knowledge, and inspiration can be found in any corner of the world. We decided to choose one corner that is often overlooked but has been part of our world for centuries, sharing abundant and inspiring points of view. We wanted to shed light on it and show it to the world, but it’s FUN!

We are all travellers in this journey called life. Let’s have fun and inspire each other to be the best versions of ourselves. May this be a meeting point to connect with the deepest part of ourselves with a unique perspective.

Muslimy Trivia: A Unique Islamic Quiz Challenge

Expected Release Date: Sept–Oct 2024

Genre: Trivia

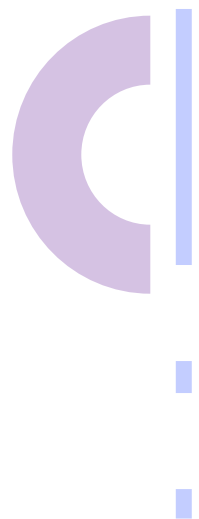

Platform: Mobile (iOS and Android)

Downloads: 0

“Muslimy Trivia” is an upcoming unique quiz game, offering a high-quality and engaging approach to testing Islamic knowledge and culture. This game should be released by autumn 2024.

Play a game of discovery and enlightenment with "Muslimy Trivia: A unique Islamic Quiz Challenge." This engaging and educational game takes you through the rich tapestry of Islamic history, culture, and beliefs. Perfect for all ages, it combines fun with learning, offering a unique opportunity to deepen your understanding of muslim cultures.

Embark on an intellectual adventure that not only tests your trivia skills but also enriches your understanding of Muslim culture. This game is more than just a game—it's a celebration of faith, knowledge, and community. Are you ready to accept the challenge?

Run Sheikh Run

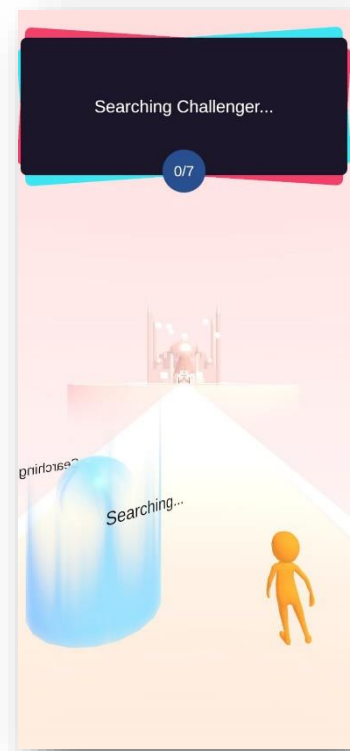

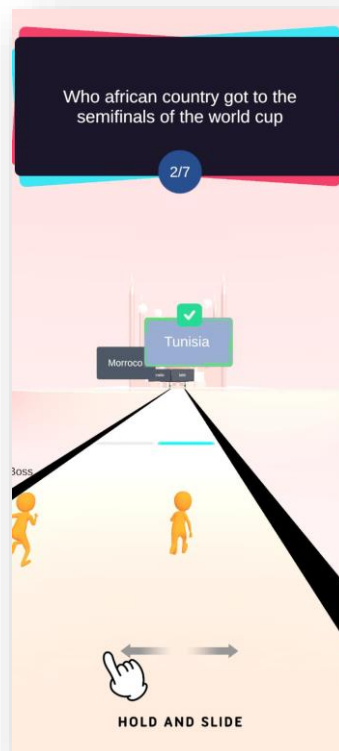

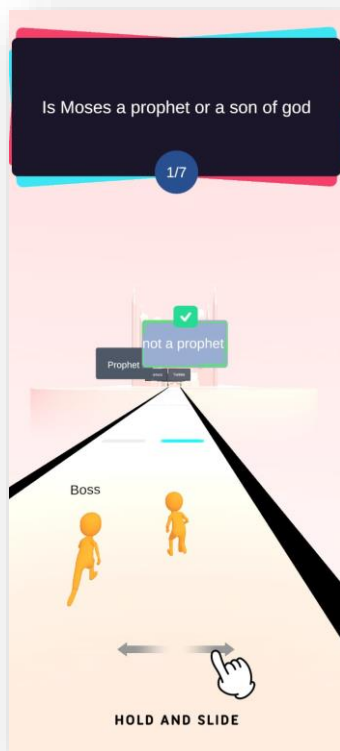

Expected Release Date: Winter 2024 – Spring 2025

Genre: Action, Trivia

Platform: Mobile (iOS and Android)

Downloads: 0

Our next apex is “Run Sheikh Run,” a 3D mobile trivia game with beautiful aesthetics and Islamic questions. Imagine racing to the mosque, answering questions along the way. Correct answers speed you up, while wrong answers slow you down. You race against others, combining fun with learning Islamic principles, values, culture, history, and more. Initially targeted at teenagers and adults.

Future Games

After releasing the games, we are currently working on 'Run Sheikh Run' and Muslimy Trivia'. There is a list of other games we are excited to get our hands on. Only concepts about them exist, but we want to branch out from directly Islamic orientated games into more mental health games and games that represent a wider culture.

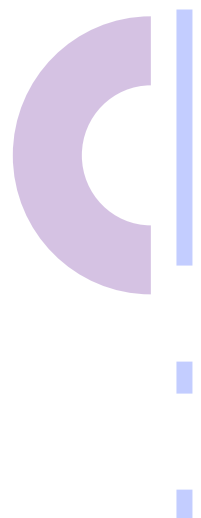

Future Islamic Orientated games:

1. Run Your Mosque: a fun game that lets you be the leader of your own mosque
2. Haram police: The player travels around 'telling people off' when their doing questionable things
3. Children learn their Deen: Games for children to help them learn their religion

Future General Games

1. Lofi Relaxing car game
2. Fight yourself (inner demons)
3. Remember: A story game that you find your way out your coma

Our upcoming games might not seem like much now, but trust us—they're going to be extraordinary, and you'll absolutely love playing them!

WHAT'S NEXT

Chapter 4

04

What's next?

Currently, our next step is to look for funding. We are looking to fund the game 'run sheikh run' and uplift hidden reminders as well as muslimy trivia.

Plans

While we love bringing our games to life and there are so much, we would like to do, everything needs a structure.

Immediate plan

We are nearing the final touches of the game Muslimy Trivia and hope to release it by autumn 2024. Last bit remaining:

- Polishing
- Game Testing
- Design Improvements

Near future 2024 – 2025

The very next game to be release will be 'Run Sheikh Run'. For this to be carried out successfully we need to

- Receive Funding for this game (more information on the funding section)
- Develop on the game concept
- Improve the UI and UX

Future plan 2025 – 2026

We have a list of other games we would like to develop; however, we are striving to receive funding because we are on the brinks of closing and not developing games any further. Therefor, by receiving funding, we can proceed with the other games mentioned earlier, if not, sadly, we may have to be on the hush for time.

- Look for Funding/Investors
- Make more games
- Grow SolKahf Interactive into something we can all be proud of

HOW CAN YOU HELP?

Chapter 5

05

How Can You Help?

We have been developing games in our spare time for the past three years, but we need your support to continue. Only one game has been released, but two are on their way to completion.

Funding and investment

To truly reach the next level, we need your financial support. Funding our game "Run Sheikh Run" would give us a significant boost, and supporting the funding of our other games would reinforce that we share the same vision and passion for meaningful gaming.

"Run Sheikh Run" embraces 3D elements, beautiful aesthetics, and fun learning experiences. We need funding to bring in like-minded individuals, acquire the right tools, and raise awareness about our games.

For more details, please see the funding and investment section below.

Skills and partnership

Many people have skills and similar visions. Connecting, sharing experiences, and growing together is a fantastic way to bring this vision to life. Skills in marketing, game design, game concepts, social media, play testing, UI, UX design, and so much more are invaluable. Your expertise can make a significant impact and help us achieve our goals.

Play and share

Everyone is valuable, and our games are made for people to enjoy. Playing our games is a fantastic way to support us. You can also help by sharing our games and letting others have a great time playing them. Following us on social media and reaching out would be wonderful.

Join us on social media or register on our email list to stay connected and support our journey!

FUNDING & INVESTMENT

Chapter 6

06

Investment and Funding

We are currently seeking funding for our games, specifically for "Run Sheikh Run." This funding will enable us to design and market our games effectively and enhance the ones we've already released.

With your support, we can build a solid foundation to develop the right games, fostering trust with investors and donors. Your investment will not only bring smiles to people's faces and provide internal peace but also yield worthwhile financial returns. Join us in making our vision a reality!

Funding for "Run Sheikh Run"

We have started a crowd funding for "Run Sheikh Run" and it requires a **budget of £10,000**, covering game development, pre-production, and post-production phases. The game is expected to be completed within 4-6 months, with another 4-6 months for post-production.

These are some of the main areas where the funding will be utilized in the process of making the game. General breakdown of Funding needs:

• Website maintenance and running costs	• Google and Apple maintenance fees
• Development software fees	• Design application fees
• Online security	• Online support tools
• Scholarly/peer review	• UI/UX designers
• Testers	• Marketing
• Videographers	• 3D Modelling
• Graphic design	• Game design
• Expert consultations	• Software developers
• Database maintenance	• Development tools
• Upscaling "Hidden Reminders" and "Muslimy Trivia"	• Improving online presence

Investment and funding for SolKahf Interactive

We love embracing challenges and overcoming them, but there are some things beyond our current reach. While we aim to expand to bigger platforms, develop larger games, and reach a wider audience, we need supporters who can facilitate this growth financially. Financial backers who share our vision will enable us to bring more talented individuals into the team and bring our games to life. Without this support, we won't even be able to maintain what we've already released. So help us out and be a part of our journey!
